Dear Mr. Anweiler,

The Beginner Driver Education (BDE) Program is pleased to advise you that your amended BDE curriculum for AplusB Software Corporation has been approved. You may begin to use the amended 'ministry-approved' curriculum effective today.

As you are aware, a ministry-approved BDE curriculum must be implemented by each course provider as of September 1, 2009. The course must be offered in accordance with the sequence, design and content of the curriculum as approved by the ministry. This means that each student is required to start at the beginning of the course and complete the course following the sequence as approved under the BDE Curriculum Standards.

The ministry-approved curriculum for your driving school has been listed as a choice on the Driver Education System curriculum drop-down list.

The approval of your amended course supports the on-going efforts of the driving school industry and the ministry to ensure that the BDE Program in Ontario continues to meet the highest standards of quality.

Sincerely

Keith Madill
BDE Program Manager
